

ABOUT HAKATAI

Hakatai Enterprises began importing and distributing glass tile in 1997. Since that time, the name Hakatai has become synonymous with beauty, affordability and innovation in the glass tile industry.

With a passion for design and a commitment to customer service, Hakatai supplies quality glass tile products and trend-setting custom mosaics to both the commercial and residential sectors.

ENVIRONMENTAL STATEMENT

Hakatai is committed to environmental conservation and sustainability. We are green-conscious regarding all aspects of our organization, continually striving to make both our products and operations more environmentally sound.

Hakatai is proud to offer several series containing recycled glass. All tile in these series is comprised of

between 30 and 70 percent glass from bottles and/or other waste glass that would otherwise have

entered the solid waste stream. This waste glass is a mix of approximately 90 percent post-consumer and approximately 10 percent pre-consumer material.

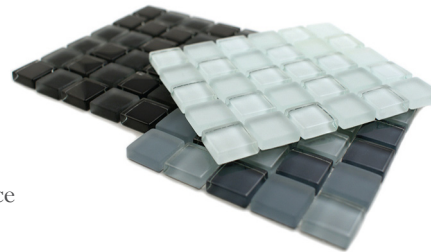

Hakatai is a member of the U.S. Green Building Council, a non-profit organization committed to expanding sustainable building practices.

In addition, Hakatai actively supports groups outside of our organization that foster sustainability and encourage environmental awareness.

CUSTOM DESIGN

Mosaic murals

Hakatai's experienced team of designers and mosaic artists can turn any drawing or design into a hand-cut, hand-aligned, fine art mosaic mural. Each mural is a custom-designed work of art. The mosaicists have an unlimited palette of mosaic colors and tile types to choose from, including Venetian glass, Smalti, gold leaf and stone. This limitless selection of materials, in combination with excellent mosaic craftsmanship, allows for stunning simulations of the various textures, colors and detailed shadings in the original artwork.

Paradox

A new concept of mosaic artistry, Paradox uses the style of cut, a monochromatic color scheme and the play of light on iridescent tile to create the design. Each hand-cut mural is produced to custom dimensions using the Saix Fantastix color palette.
